- Bank
- Border
- Chalet
- Club House
- Consulate
- Kafe Dostoyevsky
- Coastline
- Oregon
- Skyscraper

Map Veto-

Map ban (like pro-league) will take place to decide the final 3 maps in which the matches are to be played. The team which banned the last map can choose the attacker or defender side. In Bo3, the choice of sides alternates after the first map.

Spawnkilling / Spawnpeaking

- Killing somebody instantly after spawning without any chance to react or moving away will be rated as spawnkilling and will be punished as glitching/bug using.
- Killing somebody who already spawned, moved out of cover or is spawnrushed is considered spawnpeaking and will not be rated as glitching / bug using.

Glitches / Disqualification

Use of glitches is strictly prohibited and will lead to disqualification.

Minor points: these are the points awarded for bad behaviour in game 30 results in disqualified.

Some of the glitches which are not to be used are listed below

1. Coastline on the kitchen and delivery room on the ground floor has an entrance where the bomb can be planted without opening the barricade.
2. spawn peeking is allowed but spawn rushing isn't, so if an attacker dies right as soon as he spawns within 3s (near the spawn area must be valid) that's 10 minor points to the team that did it. Especially in the main door of bank.
3. Destruction of full floor of bomb site is not allowed. You can break 90% of it but not completely as there were problems when someone tried to plant the defused the prompt never appears. 10 minor points.
4. Tea-bagging or taunting is 5 minor points (can be ignored). It is allowed as long as it isn't abusive.

5. Oregon map in the connector between the Tower and meeting Hall. Reinforcing the hatch and jumping on the sandbags and crouching your way to the hatch again causes you to stand on an elevated path. Not allowed.
